What community, transportation, environmental or other issues do you feel are important for the project to study?

Safe, accessible public transportation links between Columbia Co. + Washington. This transportation link is essential for the constant improvement of the economy of the region; the health + education + well being of Col. Co. citizens who have strong relationships with Cowlitz County (business health, family, etc.)

Please provide any other comments on how the project can achieve a successful outcome for the community.

Provide safe public transit stops + links to Longview transit system. Provide a dedicated (R) turn lane onto Indust. Way from foot of bridge. Be mindful of including beautification components in the design. This is a primary gateway to Longview.

(Continue comments on back, if necessary)
