

Comment from Doris Gresho: *"The thing that I would like them to know is that -- could they put some kind of a notification on the Oregon side going north on 432 regarding traffic conditions? We're coming from Oregon across the bridge. We live in Clatskanie, and unless I see that traffic is stopped, I keep going on Highway 30 and come back around and go back home, because you could be stuck on that bridge for 45 minutes. Can they put some kind of a traffic notification sign somewhere on the Oregon side -- I know this is way in the future -- just to tell us traffic conditions on the bridge and beyond? And that's all. Just an idea."*
